Jun 9, 2020 Ham Radio Deluxe 6.7.0.391 Crack design helps most HF / VHF / UHF ham radio transceivers and receivers. It currently allows ICOM, Feb 27, 2019 Will DCR-500 resolve RTF main faults? Any program out there that will enable me to perform a diagnostic routine? Could anyone please advise as to where a fault at the main fuse could be located? If it will not aid then it's not worth the money imho. Jun 7, 2019 am not sure where to start because my ham radio software is incredibly old but it's a handcrank portable HAM radio.The software and radio control software doesn't seem to be able to operate properly or import callsigns to program the card using the software. Has anyone else run into this issue? Jul 4, 2019 there not any software to add or update my radio, i have ham radio software but it is unuseable, can someone tell me how to update it or add new software in it. The software does not recognize that the radio i have is a model 6600DX-C. Feb 27, 2019 I was wondering if anyone else has attempted to manually update a 2012-2013 Radioshack NT-1000? If so, did they encounter any problems? I just purchased this radio after buying a KII for my HF-Radio. Jun 5, 2019 I have the Radioshack NT-1000. I need help downloading the software. I have tried using the software that came with it, and TkRadio. I even tried downloading KTXT. I'm not sure if I got it working. Does anyone know how to download the software, and if it can be done? Jul 4, 2019 I would like to install the software (for the Kenwood TK-750) on my PC. I have successfully downloaded it and and have opened the folder for the software, but when i click "install" the install file starts to copy from the desktop to my PC but there are no "progress" bars on the window to see how long the file is copying. I don't know what is happening. Jul 6, 2019 I have the Kenwood TK-750 with Navstar 6016 software. I have not been able to find the software on my computer or find where to download any software for this radio. Could you f678ea9f9e
